

ARS Shears for High Performance Fibers & Fabrics

Shears for Fibers and Fabrics

Type	Length / Weight	Details / Applications	
526H	Blade length 110mm	<ul style="list-style-type: none"> - For extensive fabric cutting. - Micro-serrated edges grip fabric when cutting. - Best-selling type, cuts even the most difficult to cut aramid fabrics, PBO fabrics, prepreg material. 	
	Total length 260mm		
	Weight 60gram		
524H	Blade length 90mm	<ul style="list-style-type: none"> - Same as 526H type, except for shorter and rounded blades. - Shorter and rounded blades provide the following benefits: 1) Safety 2) For thicker fabrics, allows user to apply more cutting force 	
	Total length 245mm		
	Weight 240gram		
Craft37	Blade length 35mm	<ul style="list-style-type: none"> - Compact and lightweight. - User-friendly handle design allows for long periods of use without fatigue. - Same micro-serrated blade technology as 526H. 	
	Total length 160mm		
	Weight 70gram		
Mini	Blade length 50mm	<ul style="list-style-type: none"> - Handy shears for cutting fibers as well as fabrics. - Same micro-serrated blade technology as 526H. 	
	Total length 110mm		
	Weight 40gram		

Blades can be re-sharpened and replacement blades are available for some types. Please contact Izumi International for details.

Pneumatic Powered Shears

Type	Length / Weight	Details / Applications	
GTH30	Blade length 50mm	<ul style="list-style-type: none"> - Cutting motion is pneumatically powered for extensive cutting that can be tiring. - Cuts aramid fabrics up to 1mm thick 	
	Total length 280mm		
	Weight 1030gram		
GTH12K	Blade length 28mm	<ul style="list-style-type: none"> - Cutting motion is pneumatically powered for extensive cutting that can be tiring. (Compact version) - Cuts aramid fabrics up to 0.3mm thick. 	
	Total length 187mm		
	Weight 290gram		

Options for timing control of cuts for automated machinery available. Please contact Izumi International for details.

Rotary and Other Cutters

Type	Length / Weight	Details / Applications	
CR100A	Blade Dia 100mm	<ul style="list-style-type: none"> - For extensive fabric cutting. Heavy-duty applications of aramid, carbon fiber, PBO fabric applications. - Double insulated motor: electrical safety. 	
	Total length 250mm		
	Weight 1000gram		
HC1007A	Blade Dia 50mm	<ul style="list-style-type: none"> - Compact, lightweight, motor driven rotary cutter. - Equipped with built-in sharpening mechanism. - Handles over 8mm thick material. 	
	Total length 250mm		
	Weight 885gram		
PC1062	Blade length 35mm	<ul style="list-style-type: none"> - Air powered version for problem free operation. - Equipped with built-in sharpening mechanism. - Equipped with noise silencer. 	
	Total length 250mm		
	Weight 885gram		
Hand cutter	Blade length 50mm	<ul style="list-style-type: none"> - Handy multi purpose cutters. - Blades made of same special hardened alloy as our other products, for sharp cut and durability. 	
	Total length 160mm		
	Weight 100gram
