

PARTS AND ACCESSORIES

For Rapier Looms for Carbon Fiber Weaving

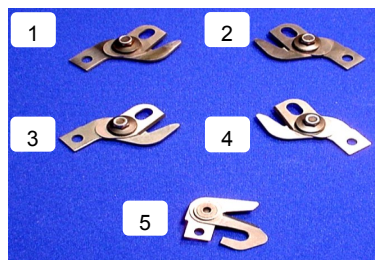

Cutter Blades and Assemblies

- Blade materials: tungsten carbide
- Serrated blades (for slippery glass fibers), high endurance coatings (for aramid fibers, etc.) also available

- | | |
|---------------------------------|----------------|
| 1) LH Selvage Cutter | J8-CTB718576 |
| 2) RH Selvage Cutter | J8-CTB718577 |
| 3) LH Selvage Cutter (serrated) | J8-CTB718576SR |
| 4) RH Selvage Cutter (serrated) | J8-CTB718577SR |
| 5) Weft Cutter (serrated) | J8-CTB718570SR |
| 6) Weft Cutter | J8-CTB718570 |

**Contact Izumi International for high endurance coatings*

Selvage Yarn King Spool Winders and Parts

- 1) 2 -spindle manual winder

Model: TSK-103

**contact Izumi International for automatic winders*

- 2) Various sized king spools for winder

Crease Removing Rollers

MRV non-bowed rubber covered roller

FE non-bowed slat roller

Roll Covering

KE-2 Type

HF-70 Type

KW-55 Type

PF-90 Type

HS-71 Type

LS-101 Type

KS-2 Type

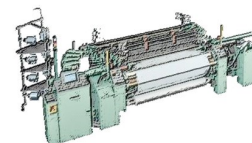

SF-50 Type

Please contact Izumi International, Inc. for special requirements

PARTS AND ACCESSORIES

For Rapier Looms for Carbon Fiber Weaving

Flat Yarn Weft Feeders

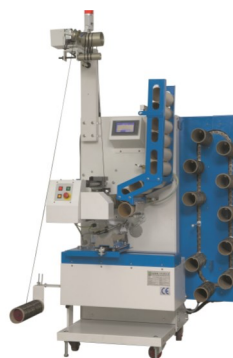

WF-510 Weft Feeder
 Max speed: 1700mm x 300rpm
 Fiber: Carbon fiber and other tapes

Rewinders for Warp Creel

KTAW :
 Fully automatic rewinder

EKTW-C-FR:
 Manual rewinder

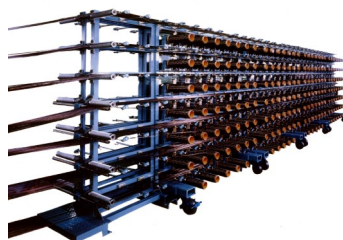

Off Loom Take-Ups

For winding large rolls, precision tension control

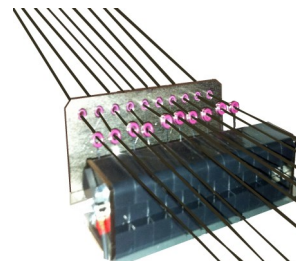

Weaving Creels

Tensioning controlled creels for weaving carbon fiber

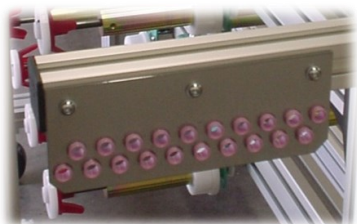

Warp Break Detectors

Fiber breakage detection for warp creels. Model shown DW-X

Fiber Guiding Systems

Various guiding systems for creels and loom inlet

Please contact Izumi International, Inc. for special requirements
